WELL POD 3 15° Filter Pack

A four-pack of 15° filters housed in magnetic frames, designed to easily attach to the WELL POD 3 and modify its beam angle.
Perfect for creating tightly focused beams to accent architectural details, highlight event décor, or for any application requiring a narrow, concentrated light output.

- Widens the standard 12.1° beam angle to a versatile 19.7°.
- Attaches instantly via integrated magnetic frames for rapid on-site adjustments.
- Ships as a convenient pack of four to outfit multiple fixtures simultaneously.
- Features a compact design for simple storage within the fixture's charging case.
- Built with a single notch for quick, at-a-glance filter identification.
- Produces a 19.7° beam and a wide 40.3° field angle for broader coverage.
