

High Performance Fog Fluid (FF5)

CHAUVET fluids are specially formulated and tested to deliver maximum fog, snow, and bubble output while protecting the internal components of your atmospheric machines. The perfect solution for any CHAUVET machine owner who wants to guarantee professional-grade effects and ensure the longevity of their equipment.

- Formulated for reliable performance in all water-based fog machines.
- Produces a thick, long-lasting cloud of fog for impactful light shows.
- Leaves no residue, protecting machine components and preventing stains on surfaces.
- Features a non-toxic, non-flammable, and unscented formula for safe operation.
- Optimizes machine output to create visually stunning atmospheric effects.
- Helps maintain the peak performance and longevity of your atmospheric equipment.
